The importance of the Easter lily is a time-honored tradition that includes both ancient mythological and Biblical history. White lilies have been associated as much with the Virgin Mary as they ...

Easter Lily Tradition and History - Guardian Liberty Voice

All species of lilies fall into one of nine hybrid divisions, including Asiatic, American, Oriental, and more. While these classifications are important for both true lily connoisseurs and budding growers alike, if we're being honest, we're here for the pretty. Read on for the 17 types of lilies we just can't get enough of.

17 Types of Lilies - Favorite Perennial Flowers

It was then named the “Bermuda lily,” but its name was eventually changed to “Easter lily” when the spring-blooming flower was brought to Philadelphia and popularized there as an Easter blossom. A virus destroyed the Easter lily’s production on the island of Bermuda, making Japan the flower’s largest producer once again.

How the Easter Lily Became the Most Popular Easter Flower ...

Longiflorum-Asiatic lilies are hybrid crosses between longiflorum lilies, which are the fragrant white lilies best known as Easter lilies, and Asiatic lilies. The flowers have thick, smooth petals and clear, bright colors. Most varieties stand about 4 feet tall and have a light fragrance.

Know Your Lilies: Asiatics, Orientals, Trumpets and More ...

Around the turn of the century the Japanese took over the annual Easter lily growing and exportation to the United States, which continued until World War II. The current U.S. production began after a World War I soldier, Louis Houghton, brought a suitcase full of hybrid lily bulbs to the south coast of Oregon in 1919.

Easter Lily Facts and Care » The Christopher Farm & Gardens

Pot-cooled bulbs are normally potted & held for 3 weeks at 63F before starting 6 weeks of bulb cooling at 40-45F (see the 2017 Easter Lily schedule for details). The bulbs then require 14 weeks of greenhouse forcing. This entire process requires 23 weeks from initial potting to Easter. This same process is used for both naturally cooled or CTF bulbs.
