The International Harvester "Green Diamond" 214 and 233 Engines (Text Source: International Trail Magazine - V17, N6, November, 1940 - "The Green Diamond Engine") (Additional Specs Source: The New Thompson Repair and Tune-Up Manual - International, Vol HD-7) More power, greater fuel economy, and quieter operation are the features of the new Green Diamond engines [...]

Green Diamond Engine - Restoring Cornelius

This was complemented by larger versions of the same engine and was built until late 1940 (as the FBB), the line-up being expanded downward by the smaller FA-series (later FAB) in 1933. The HD inline-sixes, later to become the first in International's long running "Diamond" series, first appeared in the C-30 truck of 1934.

The Junkers Jumo 213 was a World War II-era V-12 liquid-cooled aircraft engine, a development of Junkers Motoren's earlier design, the Jumo 211. The design added two features, a pressurized cooling system that required considerably less cooling fluid that allowed the engine to be built smaller and lighter, and a number of improvements that allowed it to run at higher RPM.
