While ArcGIS Pro is the primary tool used to complete the lessons, readers will also use Esri ArcGIS Online to access data and publish and share their work. The workbook is an adaptation for ArcGIS Pro from three previous books written by the authors: Making Spatial Decisions Using GIS, Making Spatial Decisions Using Remote Sensing, and Making Spatial Decisions Using Lidar.

New ArcGIS Pro Spatial Analysis Workbook - GIS Lounge

Policy decision-making requires the analytic and modeling capabilities of GIS. Many policy decisions require spatial data and analysis of overlapping sets of data layers. Necessary data analysis includes computer functions that merge various layers to produce a synthetic layer.

7 GIS-Based Decision Support Systems in Africa | Down to ...

To get data into a GIS, two procedures are used, selection and representation. Depending on how large an area you are studying, it may be okay to symbolize an entire city as a point. Other times, the entire map could be just one small part of a city. Keep this in mind as you select your data and choose how to display it.
