The Peppered Moth Margaret Drabble

Margaret Drabble's "The Peppered Moth" is a fascinating exploration of family, heredity, genetics, and the history that links family members. In the beginning, we meet a group of people interested in learning about their heritage. A scientist heads up the meeting, and is prepared to take DNA samples of the various participants.

The Peppered Moth by Margaret Drabble - Goodreads

The Peppered Moth is a 2000 novel by English writer Margaret Drabble; it is her fourteenth published novel. The novel follows the fictional experiences of three generations of women within one family, and contains several elements that are loosely based on Drabble's own biographical experience.
